

National survey of community development work 2009

The Community Development Foundation (CDF) is conducting a national survey of community development workers and their managers in September 2009.

We need your help! Your participation will help ensure that we build an accurate and informative evidence base that can be used to inform government and other interested stakeholders.

The aims of the survey are:

- To find out who is doing community work and how it is being done.
- To explore how community workers are funded, working environments and support networks.
- To gather solid evidence that can be used to raise the profile of community development.

You can help us by ...

- Completing an online survey if you do community development work or manage community development
- Telling all your paid and unpaid CD colleagues about the survey.

Your comments will be anonymous and used for this research purpose only.

Please register an interest by emailing research@cdf.org.uk.

If you do not have access to the internet you can still take part in the survey by calling Barbra Carlisle, Research Manager, at CDF on 020 7812 5452.

The survey is funded by [Communities and Local Government](#) and supported by the [CD Challenge Working Group](#).

Thank you for your support.
